OBJECTIVE

Third-year B.Tech Information Technology student (CGPA 8.86/10) seeking a software development, automation, or cybersecurity internship. Builds independent, end-to-end projects to apply skills in Python, web development, and database systems, with a goal of securing a strong full-time engineering role by 2028.

EDUCATION

Bachelor of Technology (B.Tech), Information Technology

Currently in 3rd year, full-time | CGPA: 8.86 / 10

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

Web Development: HTML, CSS, JavaScript, Responsive Design

Databases: DBMS, SQL Queries, Joins, Constraints, Subqueries

Tools & Systems: Git & GitHub (learning), Linux Fundamentals

Currently Learning: Data Structures & Algorithms, Cybersecurity Practices

PROJECTS

Jarvis AI Voice Assistant — *Python, APIs, Automation*

- Built a Python-based voice assistant with speech recognition, web automation, and API integrations for hands-free desktop control.
- Implemented music playback and command-driven task automation to streamline everyday productivity workflows.

Netflix Clone — *HTML, CSS, JavaScript*

- Developed a fully responsive streaming-platform interface replicating modern UI/UX patterns across devices.
- Built interactive content sections and navigation components to closely mirror production-grade front-end experiences.

Share to Care — *System Design, Web Development*

- Designed a social-impact platform connecting donors, NGOs, and volunteers through one unified workflow.
- Enabled NGOs to manage campaigns and donors/volunteers to engage directly, applying practical system design and problem-solving.

EXPERIENCE

Internship — Database & Operations Exposure

- Applied core database concepts in a live setting, writing SQL queries with joins, constraints, and subqueries for accurate data management.
- Strengthened attention to detail and practical understanding of data-driven decision-making within a team.

CERTIFICATIONS

- Python Essentials 1 — Cisco
- Python Essentials 2 — Cisco
- Foundations of Cybersecurity — Google
- Hands-on Introduction to Linux Commands & Shell Scripting — IBM

ACHIEVEMENTS

- Maintained a CGPA of 8.86/10 with consistent, year-over-year academic improvement.
- Independently designed and shipped 3 end-to-end software projects outside of coursework.
- Completed 4 industry certifications across Python, cybersecurity, and Linux through self-paced learning.
